

Symmetry® Green Certified* Foaming Hand Wash

Green Certified Foaming Hand Wash is a hand cleaner for general hand washing use that is biodegradable, free of all dyes, and certified by Green Seal™ to meet the GS41 standard.

One of the unique features of the Symmetry line is that the dispensers allow for liquid and foam soap. Whether you prefer using liquid or foam soap at your facility, it is as simple as changing a soap bag.

Symmetry soaps are packaged in sealed, plastic containers that are contaminate-free and allow for 99% product evacuation. That means you won't be wasting money throwing away containers that aren't quite empty. When empty, simply swap it out with a new bag. There is no product waste!

Green Seal™ is an independent non-profit organization that promotes the manufacture, purchase, and use of environmentally responsible products and services. To earn Green Seal certification, a product must meet specific Green Seal environmental standards through evaluation, testing, and an actual plant visit.
