

STAR SPRAY™

GLASS CLEANER

Put the twinkle back into mirrors, windows, computer screens and showcases with this unique glass cleaner from Buckeye.

Formulated not only for the many glass surfaces you encounter in today's maintenance cleaning schedules, **Star Spray** also makes fast work of unsightly smudges or fingerprints so frequently associated with chrome, stainless steel and those troublesome painted and plastic surfaces.

When it comes to a glass cleaner that does what the job requires, **Star Spray** delivers... without streaking.

Ready-to-Use

Pleasant Fragrance

Non-Streaking

Ammonia and
Butyl free

Safe on Plexiglas® and
Formica®

Contains no alcohol

Directions for Use

Star Spray is a ready-to-use formula. It is specifically formulated to provide the most efficient cleaning action and the best polishing performance with the least amount of effort. (Dilution of ready-to-use product will only tend to discourage these features.*)

- ❖ **General Cleaning:** Fill a Buckeye Grip & Go!® Spray Bottle with **Star Spray**. Spray a light mist on surface to be cleaned. Wipe away soil with a soft “lint free” cloth or paper towel. When cleaning windows, it is beneficial to clean around the outer edge and corners first, gradually working toward the center portion of the panel with a circular polishing action to minimize any possible streaking. On extremely dirty and grimy surfaces, these procedures may have to be repeated.
- ❖ On areas that are not readily accessible or in those areas where an “over spray” is undesirable, spray the product directly on the cloth or paper towel and proceed to clean in the above manner. Always spray **Star Spray** directly on your cloth or paper towel when cleaning electronic equipment such as computer screens or electronic scanners.
- ❖ **Large Area Window Cleaning:** Add **Star Spray** to a clean bucket in the amount anticipated for the job. Apply with a strip washer or similar applicator one section at a time. Remove cleaner and soil with a squeegee, making sure to wipe the excess from the squeegee blade, window frames and ledges with a clean cloth. **Star Spray** may be diluted 1:4 with water for squeegee applications.

TECHNICAL SPECIFICATIONS

Weight/Gallon	8.31 lb
pH	9.5 ± 0.5
Color	Aqua
Odor	Floral
Cloud Point	None
Free Alkali	None
Specific Gravity	0.998
Flash Point	None
Freeze/Thaw Stability	Unaffected by freezing
Biodegradable	Yes

Contains no Ammonia, Amines,
Butyl or Alcohols
