

MULTI-PURPOSE ACID CLEANER

Available Packaging

The **Sparkle** Difference

Buckeye **Sparkle** is the only choice when it comes to a mild, fast-acting, concentrated acid cleaner for use on ceramic tile, porcelain, chrome, and stainless steel.

Sparkle is gentle enough for these sensitive surfaces, but tough enough to clean areas only an acid cleaner can handle.

Because of its outstanding versatility, **Sparkle** is a superior acid cleaner. If you have hard water film, rust, scale, or soap scum buildup that is hard to remove without damaging your chrome or stainless steel, **Sparkle** is the perfect solution. Its 36% phosphoric acid formula quickly eliminates hard mineral films while its special wetting action easily dissolves soap scum.

Finally you can make all your wash basins, sinks, drinking fountains, swimming pools, shower stalls, stainless steel equipment, steam tables, dishwashing machines, and a multitude of other surfaces and equipment sparkle again without damage.

Gentle, yet extremely effective, **Sparkle** is the only acid cleaner you will need for superior results in your sanitary maintenance/cleaning program.

FEATURES

- Mild, concentrated acid cleaner
- Fast-acting
- Versatile
- Effectively removes hard mineral films and soap scum without damaging surfaces

MULTI-PURPOSE ACID CLEANER

DIRECTIONS FOR USE:

Dilute 1:10 (12 oz./gallon) for cleaning porcelain or stainless steel therapeutic baths, stainless steel food processing and food service equipment, and stainless steel or chrome animal cages.

Dilute 1:4 (32 oz./gallon) for general cleaning and film removal from ceramic tile and grouting; chrome and stainless steel drinking fountains; porcelain wash basins, sinks, tubs, and shower stalls; chrome and stainless steel restroom fixtures; toilets, dressing rooms and floors (USDA C2) or steam tables.

Dilute 1 oz./3 gallons for a very effective floor neutralizer.

Use full strength for cleaning toilet bowls and urinals. Use accepted restroom cleaning methods and always flush and rinse thoroughly.

These recommendations are for average soils and film conditions. They should be adjusted for varying situations. Rinse thoroughly after using. **Sparkle** concentrate or its dilutions may harm Formica®.

NOTE: Do not mix Buckeye **Sparkle** with ammonia, bleach or any other chemicals. Use on older restroom fixtures, natural stone, aluminum, galvanized steel, resilient flooring, terrazzo or carpeting may cause etching or other damage. Do not use on Formica® or Marble.

TECHNICAL SPECIFICATIONS	
Phosphoric Acid	36.0% ± 0.2%
pH Concentrate	Less than 1.0
Specific Gravity	1.23
Weight/Gallon	10.2 lbs
Color	Soft Purple
