The **Nap-Bac** Difference

Nap-Bac is a concentrated carpet shampoo formulated to clean and restore heavily soiled carpets. Use **Nap-Bac** with conventional shampoo methods or dry-foam applications.

This foaming shampoo “unlocks” the oil and water-based soils attached to carpet fibers, and allows the soils to be vacuumed away with ease.

DIRECTIONS FOR USE

Surface Preparation:

1. Vacuum thoroughly.
2. Before using any product on carpet or fabric, test a small, hidden area for color fastness.
3. Prespot with Buckeye **Gone™ H₂O₂** or **Pathfinder™**.
In soiled, high-traffic areas, boost cleaning results by prespraying with **Pathfinder** at a 1:4 dilution rate with water, five to ten minutes prior to shampooing.
4. If furniture cannot be removed, place wax paper or plastic film under and around legs to prevent staining.

Application:

1. Dilute **Nap-Bac** at 4 oz./gallon of water (31 m/l), (1:32).
2. Shampoo by overlapping on each pass to ensure uniform cleaning. Do not overwet the surface.
3. Allow to dry and vacuum before returning area to use.
