SANICARE

Disinfecting Wipes

ONE-STEP CLEANER/DISINFECTANT/DEODORANT/SANITIZER

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO CLEAN AND DEODORIZE: Wipe surface with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.

TO CLEAN AND DISINFECT: Wipe hard, nonporous surface with wipe until surface is visibly wet. Allow surface to remain wet for 10 minutes. Let air dry. If surfaces are extremely dirty, clean first with another wipe before disinfecting.

Discard used wipe in trash. Do not flush in toilet. Rinse food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect dishes, glassware, or utensils. Do not use as a diaper wipe or for personal cleansing.

Note: Not recommended for unpainted wood, natural marble or brass.

For fungicidal activity, Buckeye Sanicare Disinfecting Wipes is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) in areas such as locker rooms, dressing rooms, shower and bath areas, and exercise facilities. Buckeye Sanicare Disinfecting Wipes is a one-step fungicide.

For mold and mildew, Buckeye Sanicare Disinfecting Wipes will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

***KILLS HIV AND HBV AND HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV).

SANITIZING: To sanitize hard, nonporous non-food contact surfaces; wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for Staphylococcus aureus, Klebsiella pneumoniae, and Campylobacter jejuni. Let surface dry. For highly soiled surfaces, clean excess dirt first.

For plastic and painted surfaces, spot test on an inconspicuous area before use. This product will not harm most surfaces: including acrylic, sealed fiberglass and vinyl. Do not use on unpainted wood. Not for personal cleansing. This is not a baby wipe! Do not flush in toilet.

STORAGE AND DISPOSAL:

Store product in original container in areas inaccessible to children. Keep securely closed. Nonrefillable container. Do not reuse or refill this container. Discard empty container in trash or recycle if available.

To Open Package:

Remove cover. Pull up wipe corner from center of roll. Thread through hole in the cover. Replace cover. Open center cap on cover to remove wipe. When not in use, close center cap to prevent moisture loss.
